James Ball, Jr., Seeks Place As Delegate

James A. Ball, Jr., Belle Glade, recently announced his candidacy for delegate to the National Democratic Convention from the Sixth Congressional District. Mr. Ball is running as an unpledged delegate. Mr. Ball stated:

"I am running unpledged because I want to be able to represent the people of this district fairly at the national convention. Delegates had to qualify by March

15, over four months before the convention. Therefore, pledged delegates are not able to represent the changes in public sentiment occurring in those four months.

"Also, the bargaining power of the Florida delegation will be greatly increased by including unpledged delegates. A delegation solidly pledged to a single candidate is excluded from many conferences. But a delegation not solidly pledged carries a balance of power and has to be given consideration by all groups. This is the only way we can demand full consideration of the wishes of the people of Florida."

Mr. Ball was born in West Palm Beach in 1930, and attended Central School for several years. He has made his home in Belle Glade for the past 12 years, where he graduated from Belle Glade High School. He receives his degree in Public Administration from Florida State University this spring. Russell O. Morrow Asks Re-election As Palm Beach County's Senator

I respectfully submit to the voters of Palm Beach County that I am a candidate for reelection to the office of State Senator from the 35th Senatorial District of Florida. The 35th Senatorial District comprises Palm Beach County one. It has been my pleasure to serve the people of Palm Beach County as a member of the House of Representatives for four different terms, and to have served as your State Senator for one session to fill out the term of the late Senator John R. Beacham of West Palm Beach.

The Legislature meets for only 60 days every two years, and during that 60-day period over 3,000 legislative bills are handled. It takes diligent effort, concentrated thought and long hours of work to meet the demands of a 60-day session. I have endeavored to meet these requirements by being on the job 48 hours a day during the entire session.

Among the duties and responsibilities of state government, I believe that the public school system is of primary importance. I have always worked diligently for the betterment of our public school system and for higher standards and better protection of our school teachers. School legislation which it has been my privilege to sponsor includes:

- (1) The Minimum Foundation school program which sets up minimum standards for all schools in the state, and provides for one of the highest teachers' qualifications and one of the best educational programs for pupils of any state in the Union.
- (2) The Teacher Tenure Law.
- (3) Teacher Continuing Contract Law.
- (4) Teacher Retirement Act.
- (5) Constitutional amendment to be voted on next November allocating automobile license tag money to the school construction program.

Other legislation sponsored by your candidate was:

The ratification of the amendment to the United States Constitution limiting the presidential tenure of office to two terms. This was a long step back toward constitutional government.

Another important act was the passage of a memorial to Congress opposing World

Federal Government. Through our international relations, we have been sacrificing our sovereignty, our independence and our international respect. The State Legislature's stand against World Federal Government was strong action for the preservation of our independent sovereignty.

Another legislative measure is of particular importance to this area of Florida is the Central and Southern Florida Flood Control District. I have sponsored and supported this legislation, and through it has come to this area a greatly increased agricultural program, including the production of ramie and kenaf, also a fast developing cattle industry. I shall continue my best efforts for the further development of central and south Florida through this flood and water control program.

The Homestead Exemption Amendment to our State Constitution is an act which I supported, and since its adoption by the people of the state, I have fought to safeguard this amendment which grants to every bona fide resident of the state of Florida a homestead tax exemption up to the sum of \$5,000.

Because of our agricultural and tourist industry, it is imperative that we have a system of good roads. As fast as the economy of the state will permit, I believe these roads should be repaired and constructed, and that the cost of every road contract which is let should be carefully scrutinized to eliminate waste.

I have always supported the fair requests of organized labor and shall continue to do so. I favor any law which seeks to protect the honest labor of any man and I equally favor any law which seeks to protect the business enterprise of any individual. I am opposed to unnecessary and wrongful controls which have the effect of stifling business and free enterprise. I believe that the best government is that which has the least number of controls, only such controls as are in accord with the constitutional functioning of our government.

I see absolutely no need for any increase in state taxes, and I be-

lieve our present tax system will provide sufficient income to meet the demands made by the growth of population in our state. We will have a tremendous expansion program in the school system; these are heavy demands upon our state mental institutions, state tuberculosis hospitals; state institutions of higher learning, state welfare operation, and many other state departments. But the expansion program of all of these can be met under the present tax system, and especially so if waste and inequities are eliminated, and if lesser state functions are curtailed and necessary state functions are cut off.

If the voters of my district honor me by returning me to the office of State Senator, I will continue to render fair, friendly, common sense consideration to all legislative matters, and will never cease fighting for American constitutional government, both state and national.—Russell O. Morrow.

Christian Science Group Of Canal Point

The subject of the Lesson-Sermon in all Christian Science churches next Sunday is "DOCTRINE OF ATONEMENT." The theme of the services is the need for each individual to work out his oneness with God.

One of the citations developing this theme is the following from Micah (6:8): "He hath shewed thee, O man, what is good; and what doth the Lord, require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?"

A correlative reference from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is: "One sacrifice, however great, is insufficient to pay the debt of sin. The atonement requires constant self-immolation on the sinner's part" (p. 23).

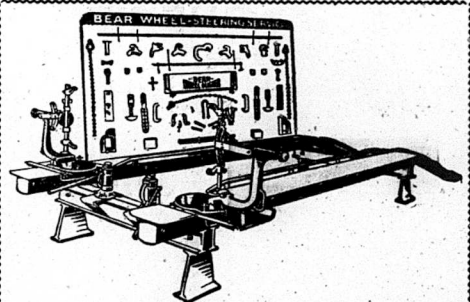

The Golden Text is from Mark (10: 45): "The Son of man came not to be ministered unto, but to minister, and to give his life a ransom for many."

TALLAHASSEE—U. S. Senator and Mrs. Spessard L. Holland have a sixth grandchild. A son was born to the former Ivanhoe Holland here this week. She and her husband, A. H. King, III, live in Tallahassee where he is in the construction business. The child was named Augustus Henry King IV.

FLOWER SHOW IS GREAT SUCCESS

Hundreds of colorful and exotic floral displays gave accent to "Spring in the Glades," theme of the Pahokee-Canal Point Garden Club's first Flower Show staged in the beautiful setting of the County Park Community Building at Canal Point Wednesday.

At one end of the hall, forming a background for the exhibits, was a Glades lawn garden in miniature, complete with bird bath and fish pond nesting in a green carpet of St. Augustine grass and a profusion of palms, crotons, hibiscus and other tropical shrubs and flowers. On the large arch above the garden the theme, "Spring in the Glades," was lettered in bright hollyhock blossoms.

The constant stream of guests visiting the show while it was open to the public from 2 to 10 p. m. were greeted by hostesses at the door where they registered in the guest book at the reception table. Refreshments of orange juice and coffee were served on the veranda to all guests.

Judges were Mrs. Abby M. Zumpf, Mrs. Herbert D. Beck, Mrs. Ivan van Horn, Mrs. A. P. Hopson, Mrs. Roy A. Bair, and Mrs. Luther Jones, all members of the Belle Glade Garden Club; H. L. Speer, assistant county agriculture agent; R. L. Brooks, Pahokee High School agriculture instructor and Dr. E. S. Brandes of Canal Point, retired agronomist of the U. S. Department of Agriculture.

Mrs. Jess M. Elliott was general chairman in charge of the show. Assisting her were committee chairmen: Mrs. Claude L. Shirley, entries; Mrs. Anderson Chastain, schedules; Mrs. Don Hillier, staging; Mrs. Homer J. Clause, classifications; Mrs. Emma Wheeler, hospitality; Mrs. Leo Maxwell, awards; Mrs. W. S. Happier Living—

in Florida
is a "pennies" proposition!

Sure folks in Florida buy more electricity than almost anywhere else. It's modern...it's cheap! Look how little it costs a family of four in a typical "Sunshine Service" home to add...

DISHWASHING...

Operating a new "automatic" ends that "turkish bath" chore and dish-pans hands for less than a penny a meal!

CLOTHES DRIER—

An end to hanging up and taking down...to worry about wind, rain and broken lines...for a family average of a penny or two a day.

CLOTHES IRONER—

Sit-down comfort replaces a "backbreaking" hand iron for 6c to 16c a week...an average of less than a half-penny a day per person.

CLOTHES WASHING...

Cleaner clothes...without rinse tubs or wringing! A new automatic operates for 20c a month or less...about a penny per person for the week's washing!

and **Saves more...** You'll be amazed at how little it costs to add other work-saving, time-saving Sunshine Services. See your dealer today!

Pahokee Resident Missing For Week

Police and highway patrolmen are still searching for Edward (Ed) Unwin, 74, a Pahokee resident for the past 30 years, who

left his home Thursday morning and has not been seen since.

Police Chief Leon Guthrie said the missing man's wife, Mrs. Julia Unwin reported her husband left their home at 8 a. m. Thursday. He was reported seen an hour later in front of the Chamber of Commerce office at Belle Glade, but since that time has not been located.

A son, David Unwin, also of Pahokee, told authorities that there had been nothing unusual in his father's behavior on the day he was reported missing and could give no reason for the disappearance.

The missing man, a painter, is described as being 5 feet, 2 inches tall and weighs 100 pounds. He was last seen wearing a dark brown felt hat and a light blue short-sleeve shirt, tan sweater and khaki trousers.

New County Barn And Road Building Equipment In The Glades

Above is shown the new County Barn located just north of Belle Glade on the Pahokee-Belle Glade Road. Shown also is the fleet of modern dump trucks assigned to the Glade for road building purposes. County Commissioner Paul Rardin is directly responsible for the new barn and the much-needed equipment. First it was necessary to secure land on which to build the barn. This was done by Rardin with the full cooperation of his board. The land was secured from the State of Florida for a token payment since it was to be used for county governmental purposes. After the land was secured Rardin asked his board to erect a modern barn and garage to house the equipment assigned to this area. Heretofore the equipment was kept on a lot in Belle Glade where a two-truck barn was built many years ago. When Rardin became County Commissioner there were three dump trucks on the Glades road department list. The new barn is an outstanding accomplishment of the Canal Point newspaper editor who has efficiently served two terms as County Commissioner from the Glades.
